

The Teal-Jones Group

Large Size Timber in Douglas Fir and Hemlock

Recent modifications to our sawmills have now given the Teal Jones Group the ability to supply large size Timbers in both Douglas Fir and Hemlock.

6", 8" and even 12 x 12 can now be cut to order. In the past we've received inquires for Appearance Grade Landscape, Decking Timbers, Timber Frame Home Timbers and lower grade Crane Mat Timbers and have not often been able to quote this business. We are now in a position to fulfill these requests.

Our first order of 6 x 6 Hemlock was produced and recently shipped. S4S in the 6" Timbers and Custom Kiln Drying and even Pressure Treating are also available.
